Web Announcement 2332

## **Attention All Providers: Revalidation Process Reminders**

When it is time to revalidate a provider contract with Nevada Medicaid, all revalidations must be completed through the Electronic Verification System (EVS). Once logged into EVS, locate the "Provider Services" section on the bottom left hand side of the home page and select "Revalidate-Update" to begin the revalidation process. Then, click on the "Proceed" button from the next page, which will then take you to the Online Provider Enrollment (OPE) tool, which allows you to begin the revalidation process.

Please review the [Provider Enrollment](#) webpage for additional revalidation information.

The Nevada Medicaid Provider Training Team hosts monthly training sessions for providers to learn about the revalidation process and ask questions, as necessary. Please review the [Training Calendar](#) for dates and times of upcoming sessions or navigate to the [Training Registration Page](#) to register for any upcoming sessions.
